

LAKE KASHAGAWIGAMOG - 2019 INVASIVE SPECIES TESTING RESULTS

Invasive Species	2019 LKO Findings	2018 Student Findings	Student Findings	Historical Findings Comments
Round Goby	Absent	Absent	Absent	Recommend a monitoring system
Rusty Crayfish	Present	Absent*	Present	Data found from COHPOA** and OFAH***
Purple Loosestrife	Present	Absent*	Present	Data found from COHPOA**
Eurasian Water Milfoil	Present	Present	Present	Data found from OFAH***
Spiny Water Flea	Present	Present	Present	Data found from COHPOA**
Zebra Mussels	Absent	Absent	Present	Present only in the more gently sloped areas (COHPOA**)

Notes:

- 1) Once a species is found in the lake, it is likely present forever, unless environmental conditions change and the species can no longer survive.
- 2) We are not testing for the density of a species at this time. At this time we are testing for whether the species is present or absent.

* Student testing done at NOT optimal time of year
